R.T. Stuart say:

For our own-shop orders we saved having to replace one member of staff with the switch to remote tablet ordering

🗑 **Reduced Waste**
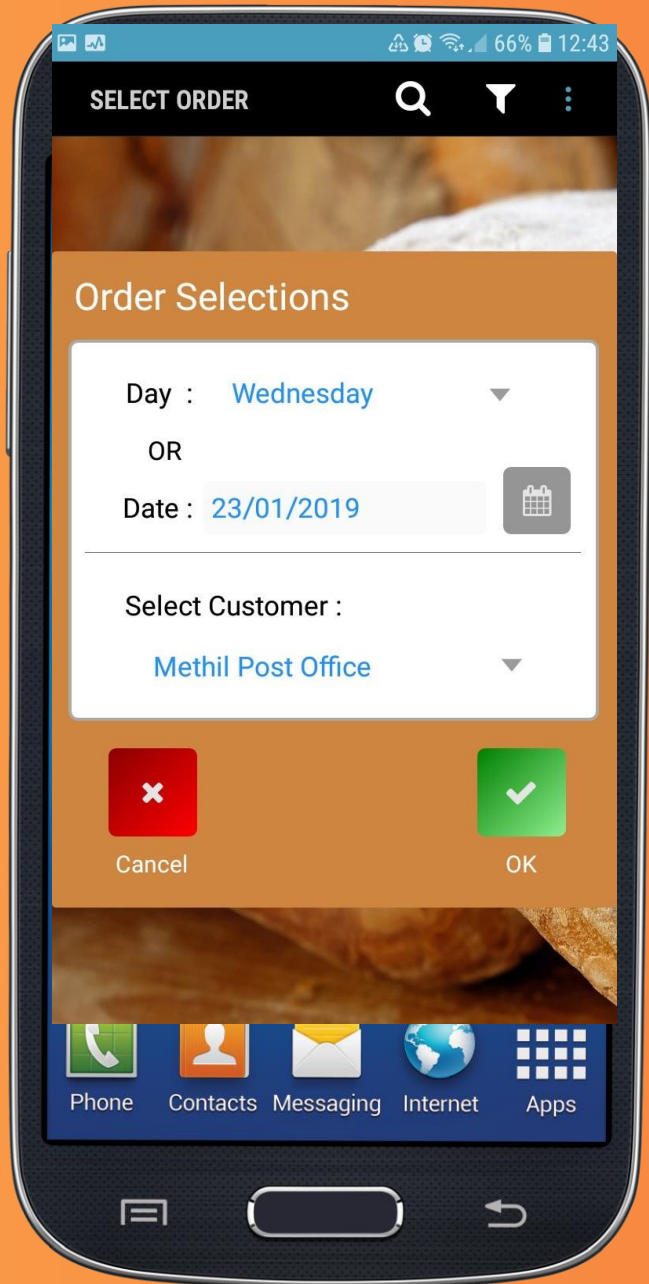

📈 **Improved Efficiency**

◎ **Improved Accuracy**

🕐 **Automatic Notifications**

🔔 **More order control**

Key Benefits

No delays – orders, waste returns and stock go directly into Foodlogik at the bakery

Automatic cut-off – the bakery can control when the last shop and wholesale orders can be placed

True product data – the shops can't make up a product and hope the bakery can supply it!

Guide shop orders - Standing and suggested orders can be easily managed

Far-reduced start-up costs - just take a laptop or tablet to a new shop and start ordering!

Reduced admin – no more need for ordering by phone or complicated spreadsheets

I**mproved communication** – upselling and promotion messages can be sent direct to the shop terminals

Record sell-out times - you can work out how many lost sales you had and adjust stock accordingly
